Election/Restrictions

Claims 3, 5-7, 9-15, 18, 20-22, 32 and 34-52 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on August 15, 2005.

Claims 3, 5-7, 18, 20-22 and 32 have been withdrawn from further consideration because these claims are referring to a non-elected species (e.g. Species I and Species III). For example, Species I (Fig. 1), is referring to the preparation of multilayered bands piled in a circular configuration and Species II (Fig. 3), is referring to multiple fabric strands combined with hydrogel surrounded by a container.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, 4, 8, 16, 17, 19, 23-31 and 33 are rejected under 35 U.S.C. 102(e) as being anticipated by Belef et al US Pub. 2002/0147496.

Belef et al discloses a system comprising an injection tube (14) having a diameter similar to the partially excavated cavity (96), a volume of tissue promoting material (π 61) and an insertion device coupled to the injection tube (see π 62 & 64).

Regarding claims 2 and 8, see paragraph 65.
